

# What's A Zine?

A self-published, self-distributed, maga-**ZINE** (say "zeen")

**Zines** are photocopier friendly and accessible for all

What can you make? Drawings! Collage! Poetry! Recipes!

*If you can dream it you can **zine** it!*

## How To Fold & Cut A Zine

### Tools

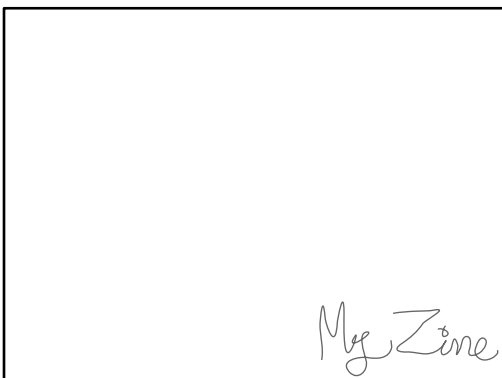

- Scissors
- printer/copier paper

### Art Supplies

- Pens, glue, paper scraps
- Anything you can find...

***\*This zine is made from one sheet of paper***

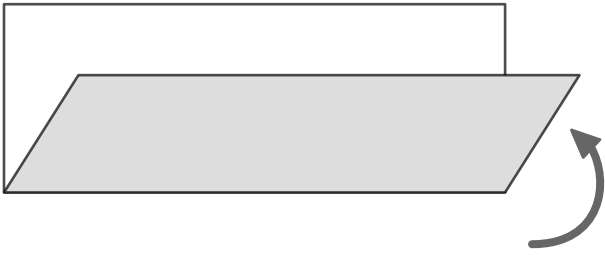

***\*\*It will have six pages, a front, and back cover***

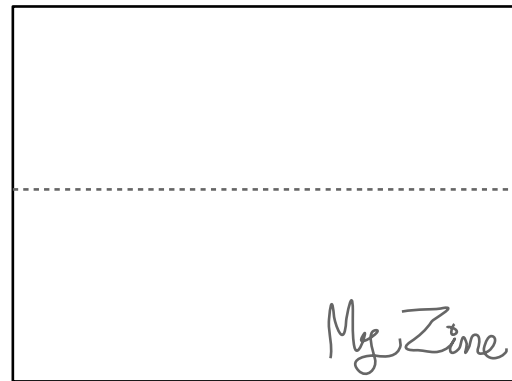

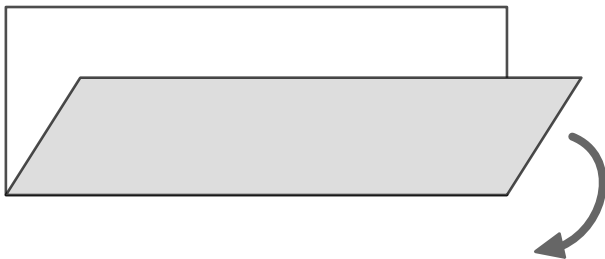

1.

Lay paper flat onto work surface in landscape orientation--wider than it is tall

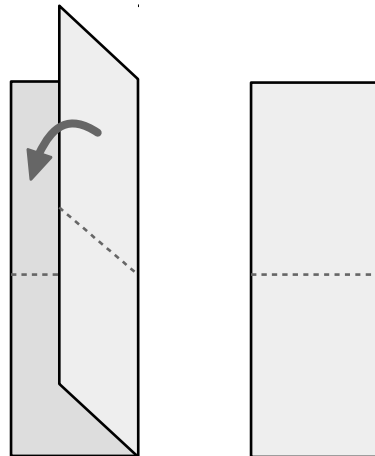

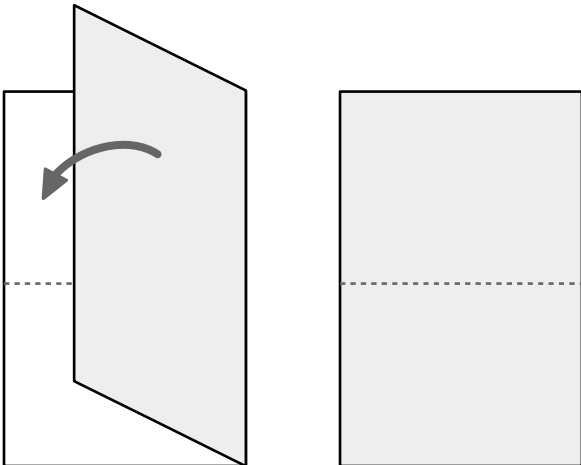

Sign the paper somewhere.  
This is the back side

2.  
Bring bottom up to fold in  
half longways. Crease

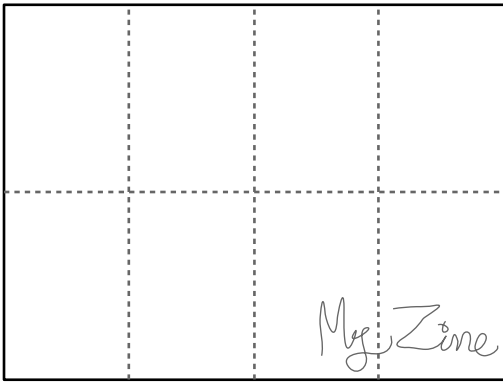

3.  
Unfold. Crease runs horizontally  
through middle

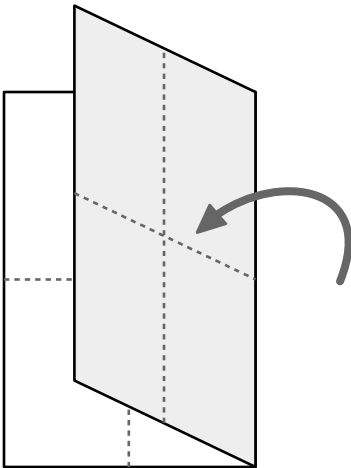

4.  
Fold in half sideways, right  
to left. Crease

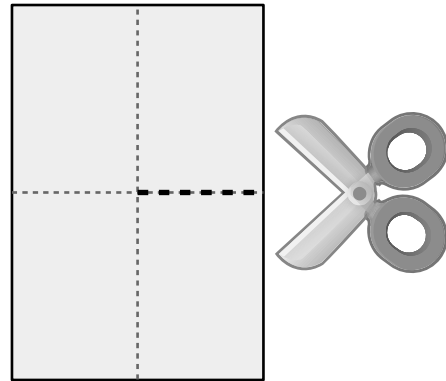

5.  
Fold in half sideways, right  
to left. Crease

6.  
Unfold and lay paper flat  
on work surface with your  
Signature facing you

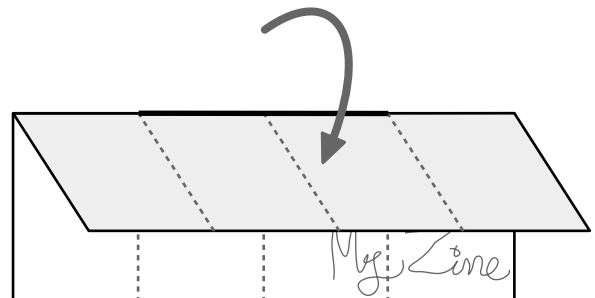

7. Fold in half sideways, right  
to left

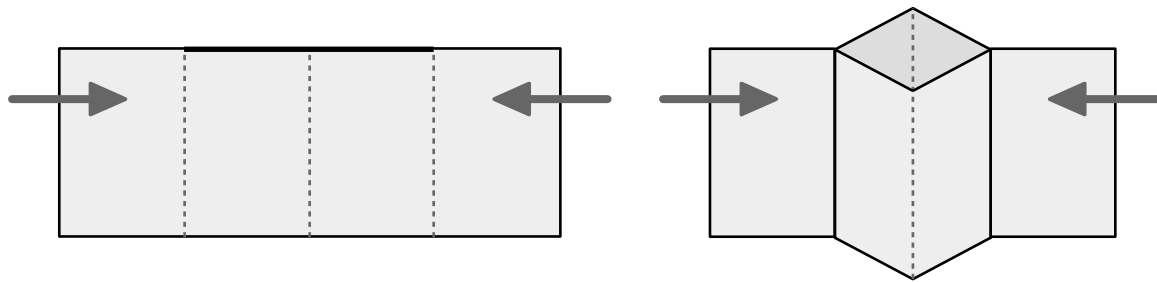

8. Cut on middle crease, on right  
side, halfway through

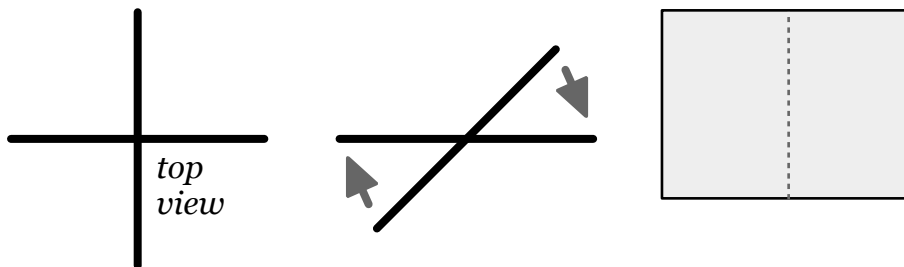

9.  
Unfold and lay flat with  
your signature facing you

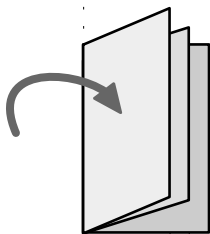

10.  
Bring top down to meet bottom  
edge

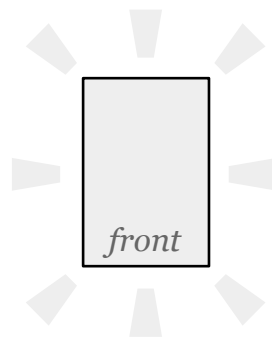

11. Push ends together so middle part separates

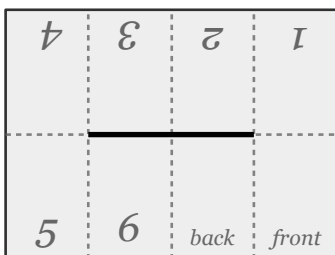

12. Back goes right, front goes left. **Zine** is open

13. Bring left side over to close **zine**

14. Label front cover lightly with pencil

Your **zine** has six pages inside, plus a front and back cover  
 TIP: Number the pages in one of the corners. This is helpful for both creators & readers
